 ETIENNE LEROUX  
PRIMARY EXAMINER

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The prior art made of record does not teach or fairly suggest the combination of elements as recited in the following independent claim(s). Specifically, the prior art of record does not teach:

the synchronization module further configured to partition an interval into at least a first and second sub-interval when a summary hash for the interval in the database does not match a remote summary hash so as to seek remote summary hashes for the first and second sub-intervals from the remote transaction database, wherein the database can avoid synchronization of database records in a sub-interval with a local sub-interval summary hash that matches a sub-interval summary hash received from the remote transaction database.

The dependent claims being definite, further limiting and fully enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
